Nomination Letter — Becky Pickle

CEO, Utah's Hogle Zoo

To the Search Committee,

It is my privilege to nominate Becky Pickle as an exceptional candidate for the role of Chief Executive Officer of Utah's Hogle Zoo.

Becky brings a rare combination of strategic leadership, operational discipline, and mission-driven passion that aligns directly with the evolving role of a modern zoological institution. Today's zoo is not only a place of education and conservation, but also a complex enterprise that must balance guest experience, financial sustainability, community engagement, and global impact. Becky is uniquely equipped to lead across all of these dimensions.

Throughout her career, Becky has demonstrated an ability to build and lead high-performing teams while maintaining a clear focus on long-term vision. She is known for her decisiveness, accountability, and ability to translate strategy into execution. Just as importantly, she leads with integrity and emotional intelligence — earning trust across staff, partners, and stakeholders.

What distinguishes Becky as a CEO candidate is her ability to connect mission with growth. She understands that institutions like Hogle Zoo must continuously evolve — enhancing visitor experience, expanding conservation impact, and strengthening community relevance — while maintaining operational excellence. She has a proven track record of identifying opportunities, mobilizing teams, and delivering measurable results.

Becky also brings a strong appreciation for the role Hogle Zoo plays within Utah and beyond. She understands the importance of:

- Advancing conservation and education initiatives
- Creating meaningful, memorable guest experiences
- Building partnerships across public, private, and nonprofit sectors
- Ensuring financial stewardship and long-term sustainability

Her leadership style is collaborative but decisive, strategic but grounded, and always aligned with mission. She has the ability to unify teams around a common purpose while also driving performance and accountability — a balance that is essential for a CEO in this space.

In a time when institutions must adapt quickly while staying true to their core values, Becky represents the kind of forward-thinking, capable, and principled leadership that Utah's Hogle Zoo deserves.

I recommend her without reservation.

Sincerely,

Andrew Peterson
